

INTRODUCING ESG REPORTING ADVISOR

4ESG: Your Digital Partner for ESG & Sustainability Transformation.

Accelerate your ESG journey with Microsoft Sustainability Manager, Microsoft Fabric, and Microsoft Cloud for Sustainability — enhanced with 4Sight's IoT & AI IP (4IoT).

The Challenges We Solve

- **Complex Standards & Frameworks**
Simplify compliance with GRI, SASB, TCFD, ISSB, CSRD and regional regulations.
- **Manual, Error-Prone Processes**
Replace spreadsheets with automated, auditable ESG data pipelines.
- **Siloed, Inconsistent Data**
Consolidate fragmented data into one trusted source of truth.
- **Value Chain Blind Spots**
Integrate supplier & partner emissions for full transparency.
- **Unclear ROI on Sustainability**
Quantify financial & operational impact; benchmark progress against peers.

Our ESG Offerings

Sustainability Landscaping

A 360° view of your ESG maturity across operations, governance, suppliers and customers. We assess risks, gaps, and opportunities — providing the clarity to future-proof your business and inform your roadmap.

- Risk assessment across E, S & G.
- Gap analysis vs. global standards & investor expectations.
- Opportunity mapping for savings, growth & trust.

ESG Strategy & Roadmap

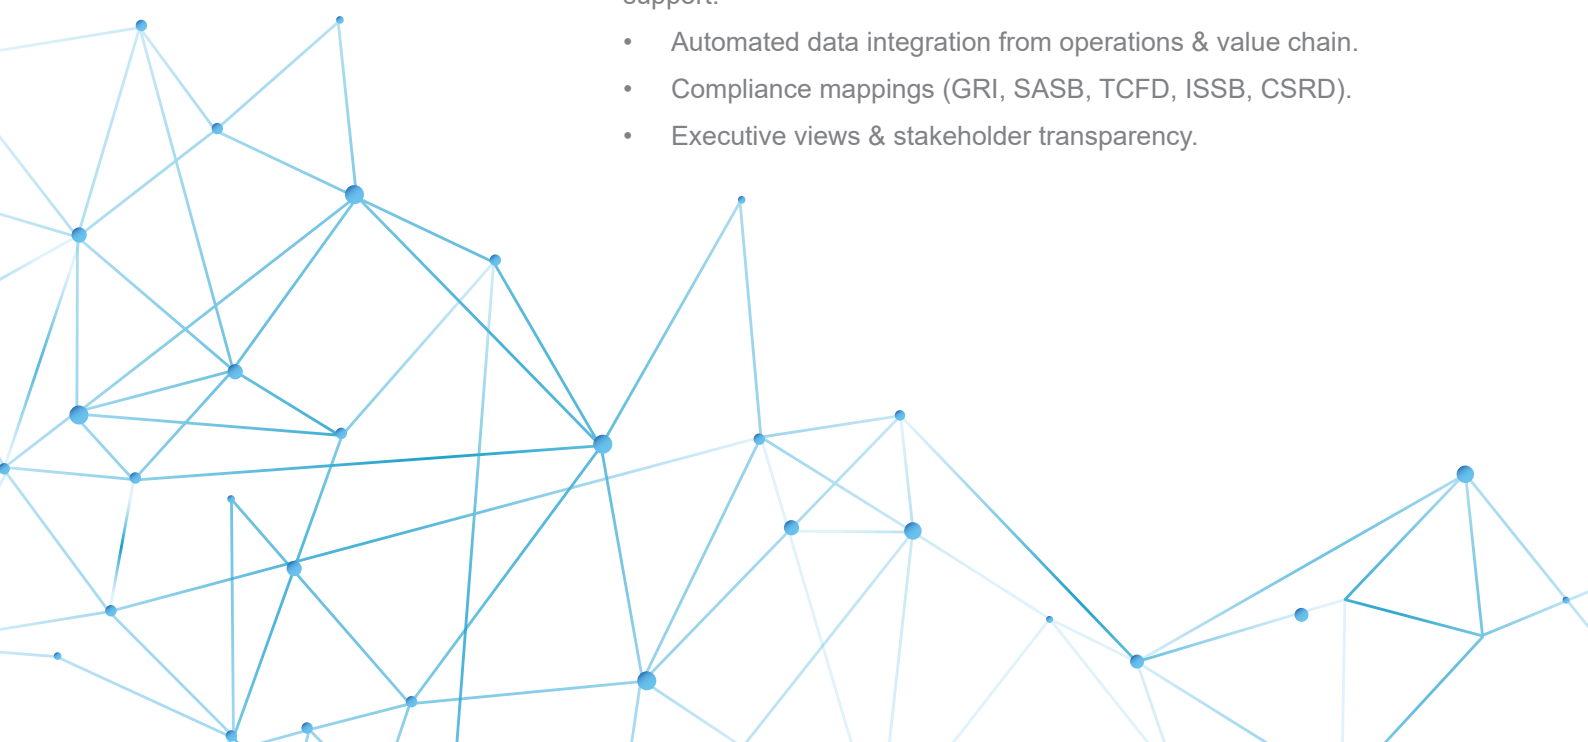

Translate insights into an actionable plan aligned to frameworks (GRI, SASB, TCFD, ISSB) and business objectives — with milestones, KPIs, and clear accountability.

- Materiality & strategic alignment.
- Prioritised initiatives with KPIs & owners.
- Stakeholder engagement & buy-in.

ESG Reporting Dashboards

Real-time, transparent insights powered by Microsoft Sustainability Manager & Fabric — enabling compliance-ready reporting and decision support.

- Automated data integration from operations & value chain.
- Compliance mappings (GRI, SASB, TCFD, ISSB, CSRD).
- Executive views & stakeholder transparency.

How 4ESG Works for You

- **Automate ESG Data**
Collect & report across global operations with auditable pipelines.
- **Unified Model**
Integrate disparate systems into a single model for end-to-end visibility.
- **Real-time Insights**
Enable smarter investments & strategy decisions with live dashboards.
- **4IoT Integration**
Track carbon drivers (energy, waste, transport), detect anomalies, automate workflows.

Why Choose 4Sight

- **Holistic & Integrated**
Consulting plus Microsoft tech for an end-to-end ESG operating model.
- **Microsoft Expertise**
Deep capability with Sustainability Manager, Fabric, and Cloud for Sustainability.
- **Proven Impact**
Faster, more accurate reporting, reduced cost, and a clear path to net-zero.

Key Benefits of 4ESG

- Accelerated ESG reporting.
- Improved compliance & audit readiness.
- Transparent, credible stakeholder reporting.
- Smarter investment & resource decisions.
- Long-term sustainability & business growth.
